

Power Generation - Coal Status Dashboard

Report Date: 27 June 2025

Prepared for: Higher Officials

Overall Coal Stock Position

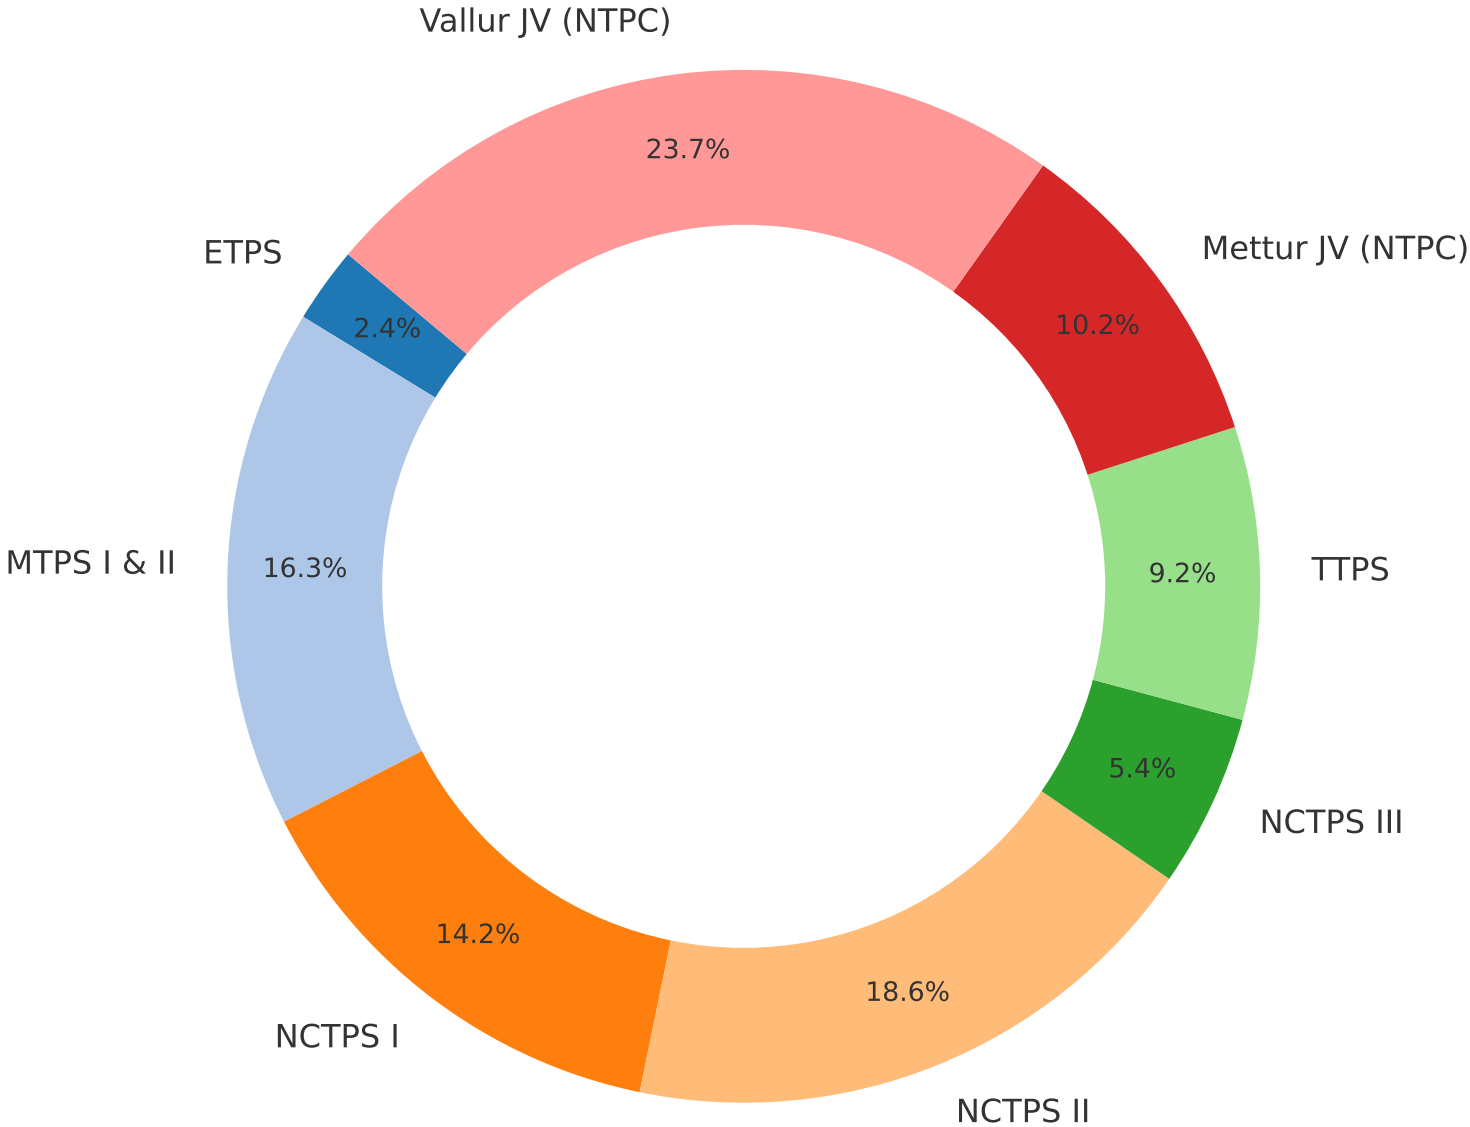

Total Stock: ~2.25 Lakh Tonnes (~5.6 days)

Required Daily Coal: ~0.40 Lakh Tonnes

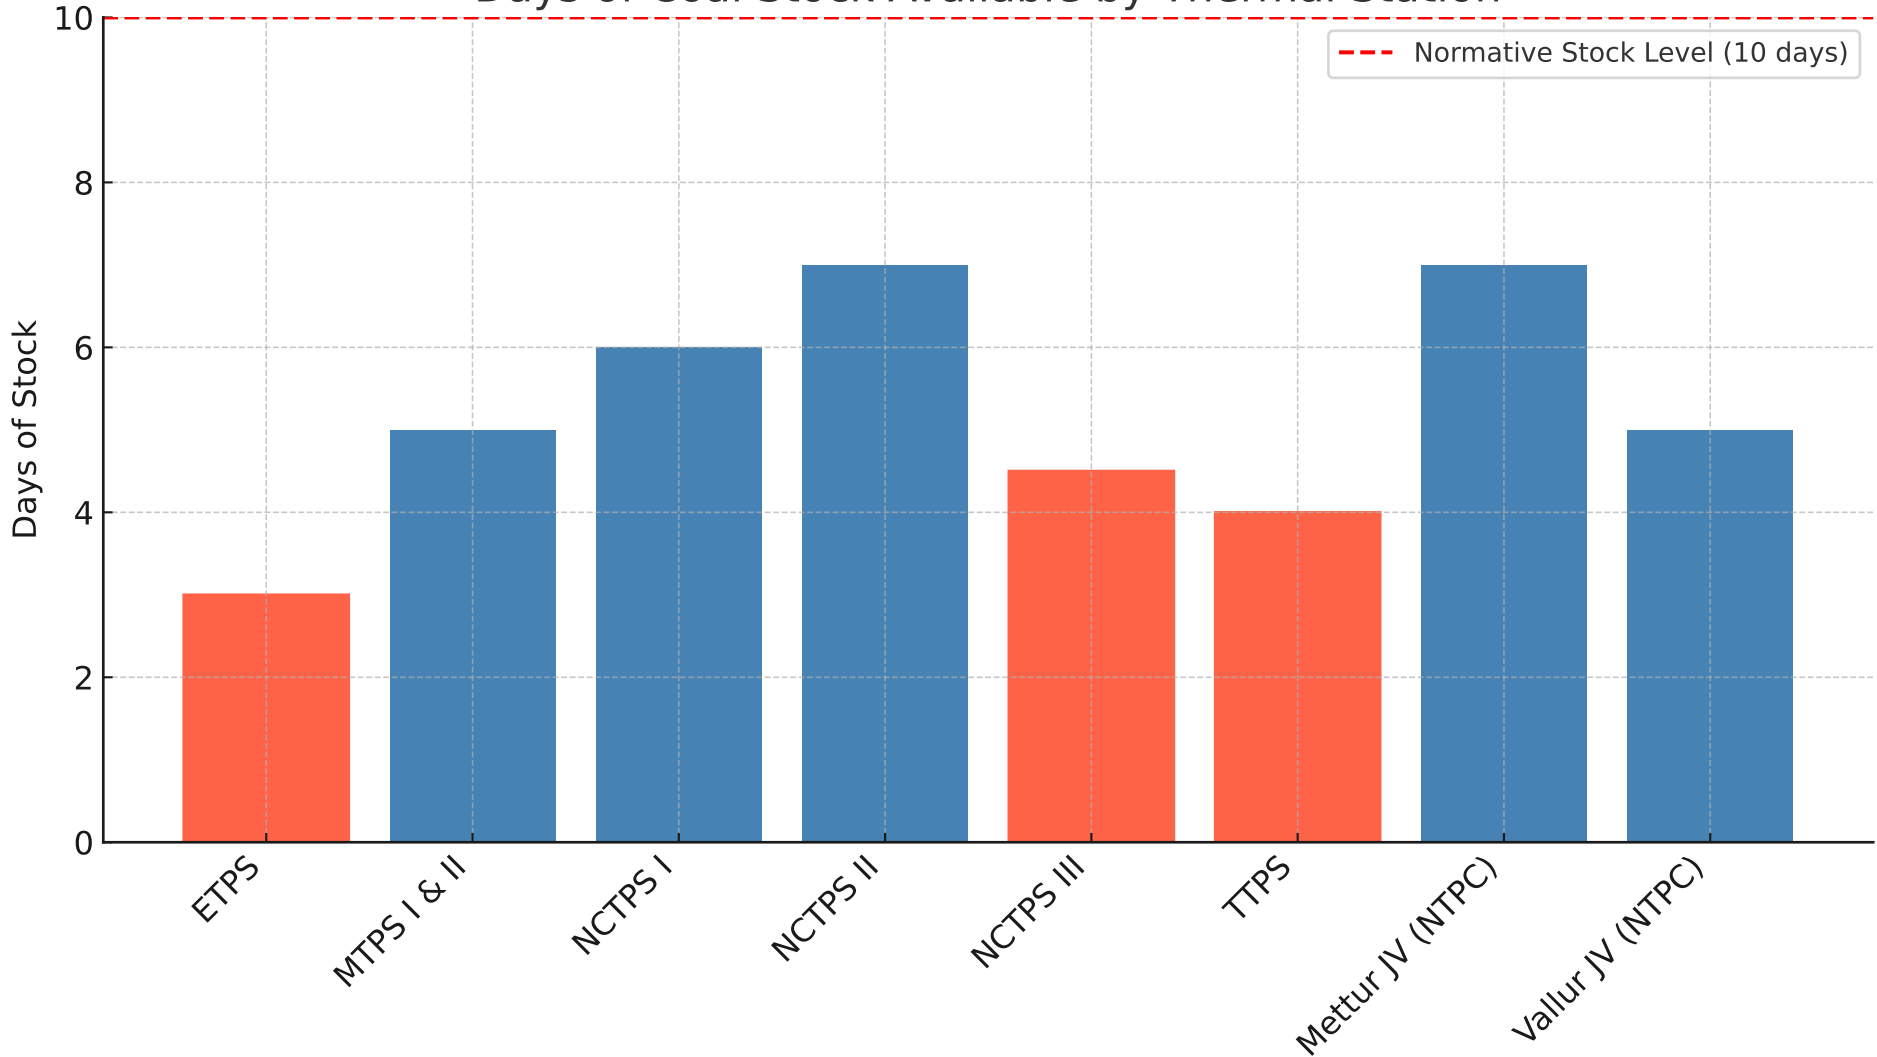

Remarks:

Stock below normative level, requires urgent replenishment.

Coal Stock Distribution by Thermal Station (Million Tonnes)

Days of Coal Stock Available by Thermal Station

Concerns Identified and Recommendations

Concerns:

- Overall coal stock below desired normative stock (10-15 days)
- ETPS and NCTPS III critically low
- Inland transport delays and port congestion affecting supply

Recommendations / Action Plan:

Immediate Logistics Coordination:

- Expedite rake movement from Talcher, Ib Valley, MCL
- Coordinate with Indian Railways for priority movement
- Avoid port delays

Operational Adjustments:

- Curtail load at ETPS
- Shift generation to plants with better stock

Stock Augmentation:

- Build stock to minimum 10 days within 7 days
- Request more rakes from central pool

Policy & Escalation:

- Engage Ministry of Coal & Railways
- Explore short-term imported coal blending

Monitoring Mechanism:

- Daily tracking of coal receipt and consumption
- Real-time dashboard to CMD & Board
- Alerts for stock below 4 days
